## TRUWOOD NOTES

## LAP SIDING

* Allows for 1 in. overlap and assumes a $5 \%$ waste factor.

## PANEL SIDING

* Assumes a $10 \%$ waste factor for cutting and fitting.
All grooved panels are shiplapped on the long edges and cut over size to provide 48 in. net coverage when applied.

Adobe panels are shiplapped on the long edges and cut oversize to provide 48 in. net coverage when applied.

## SURE LOCK™ LAP SIDING WITH CONCEALED NAILING SYSTEM

TruWood Sure Lock ${ }^{\text {Tm }} 1 / 2 \mathrm{in}$. Lap Siding does more than securely lock in each piece of siding, it also locks in Tru beauty. Sure Lock uses a hidden nail design that allows for flexible and easy application, and features our Old Mill ${ }^{\circ}$ textured surface for the look of cedar without the defects or high cost. And now, you can also opt for our new 12 in . V-Rustic siding for the lasting curb appeal of mid-century modern style. No matter which you choose, you'll always get quality and character that lasts.

## FEATURES/BENEFITS

- Sure Lock profile assures straight, level installation
- Quality engineered surface and core
- 30-year limited warranty
- Pre-primed for improved weatherability
- 16 ft . lengths
- Matching reversible TruWood Trim
- Installs 25-40\% faster than cement or vinyl sidings
- Use for residential single-family, multi-family housing, remodeling and light commercial projects
- Easy and safe to install using normal woodworking tools. No silica dust.
- Ask us about our FSC ${ }^{\circ}$ products (FSC®-C002971)
- Resists mildew, rot and termite damage
- Naturally-occurring additive safe for use around children and pets

TruWood Siding and Trim meet the requirements of the following:

2018 International Building Code
2018 International Residential Code
ICC ESR-2588
American National Standard ANSI-CPA 135.6-2012
California Wildland-Urban Interface (WUI)

Fire rating $=$ Class $C$
R Value $=0.67$ (hour) (Sq. Ft.) (Fahrenheit) per BTU
$1 / 2$ in. Lap Siding $=$ No Shear Value
CAL. PROP 65 WARNING: Use of this product may result in exposure to wood dust, known to the State of California to cause cancer.

## PROPER STORAGE AND HANDLING

- Store siding flat and support on stringers to avoid sagging and contact with the ground
- Siding must be covered and protected from the elements
- Stack no more than eight units high
- Allow siding to acclimatize to local conditions prior to installation
